Melissa Strickland, Administrator

We are notifying our patients who were seen in the office between March 20, 2020 and April 2, 2020 that we had staff positively diagnosed with the Coronavirus disease (COVID-19). Prior to the results and since then we began to implement steps to keep this from happening. Since learning of these results, our office has been collaborating with The Guilford County Health Department to properly disinfect our office using EPA approved disinfectants.

If you were seen during this time please follow the CDC guidelines regarding self-monitoring. If you should develop symptoms of COVID 19 please contact your Primary Care Physician for further instructions. The self-monitoring time would begin the date you were in our office and 14 days following. **Please refer to the 2 page CDC guideline document for further information and guidance.**

Guilford Orthopaedic and Sports Medicine Center has taken steps to minimize further risk to all patients, staff and providers. We closed this week to thoroughly sanitize the office.

Our providers are available to perform Telehealth appointments with you the remainder of this week and upon reopening. Please call the office during normal business hours to schedule an appointment. We will reopen the office on Monday, April 13, 2020.

We will continue to follow the CDC guidelines to minimize risk to everyone. These include:

- Screening every person entering the building with a surface temperature, taking an oral temperature when warranted.
Unfortunately the supplies for thermometer covers is limited.
- All who enter the building are answering the CDC guideline questions. Where necessary we are rescheduling appointments for a future date.
- All staff wear mask in the office. Patients are recommended to wear mask as well.
- We are sanitizing hands and social distancing staff and visitors to the best of our ability.

We at Guilford Orthopaedic and Sports Medicine are here to help you through your needs. We are available to assist you. We sincerely apologize for any inconvenience as we all work through these unprecedented days.
