## ePrescribing

Guilford Orthopaedic and Sports Medicine, A Division of Southeastern Orthopaedic Specialists are in the process of implementing ePrescribing in each of our offices.

ePrescribing is a federally mandated initiative that requires all physicians prescribe in this manner by 2011.

ePrescribing software sends prescriptions over the internet to your pharmacy in a safe secure way, through the same technology used by credit card companies. This helps protect the privacy of your personal information.

ePrescribing software also lets your doctor see important information-like drug interactions and your prescription history.

The benefits to you:

- Less confusion over handwritten prescriptions or unclear phone calls.
- Reduced possibility of medical errors.
- Less chance of adverse drug reactions.
- Fewer trips to drop off at the pharmacy.
- A safer, faster, easier way to get your prescriptions filled.

### Patient Consent:

I agree that Guilford Orthopaedic and Sports Medicine, A Division of Southeastern Orthopaedic Specialists may request and use my prescription medication history from other healthcare providers or third party pharmacy benefit payors for treatment purposes.
